## 1. IT Forum

### 1) Background

- **ICT affects the lives of persons with disabilities and their countries.**

- There are about one billion persons with disabilities in the world, or 15% of the global population, and of these more than 80% live in developing countries with low ICT Development indexes.

- Owing to the severe information divide, persons with disabilities are being excluded from society, suffering inequality and poverty.

### 2) Purpose

- **IT Forum is a place for discussion toward the better ICT Partnerships.**

- We have to contribute to make network and promote ICT policy in each country by holding IT Forum.

- To make GITC's result be clear, we need to survey objectively for estimating and comparing current status and future.
